LONDON AND GLASGOW
GOWANS & GRAY
LIMITED

THE crush and competition of this high-pressure age has caused hundreds of thousands of people to choose Canada as their home, and many thousands are at the present moment thinking of emigrating thither. For them and for the innumerable number of people who have friends in that country and are interested in daily life there, this little book is intended by the publishers, who take this opportunity of thanking the Canadian Pacific Railway Company for the use of a fine series of photographs.
